

SURVICE

ENGINEERING COMPANY

AGILE ACQUISITION IDIQ – SMALL BUSINESS

BACKGROUND

SURVICE Engineering is one of multiple small business vendors fulfilling the Department of the Air Force, Air Force Materiel Command, Air Force Life Cycle Management Center, Armament Directorate (AFLCM/EB), Armament Systems Directorate (AFLCMC/XZW), and Special Operations Command (SOCOM Det 1) requirements to develop and apply unique solutions to air delivered weapons systems requirements, studies and demonstrations.

U.S. AIR FORCE

MISSION

The Agile Acquisition IDIQ contract will serve as a contract vehicle to support short-term systems development efforts to satisfy warfighter needs efficiently and expeditiously.

The types of efforts the contractor shall be required to perform are exemplified by, but not limited to, the following functional areas:

- Design
- Engineering Development
- Fabrication
- Demonstration Studies (Demo's)
- Testing
- Hardware/Software Modification
- Data Collections and/or Analysis in support of demonstrations or development
